

Asst Chief, DPD
Approved For Release 2001/03/01 : CIA-RDP33-02415A000300290034-9

Agree in principle, however, I would not suggest that we go as far as Fred would like. Actually, we are on the low side of the power curve if the ASB types are not already pursuing some form of close liaison with the Area Divisions. I guess that it would be Utopia if there were any such animal as close liaison which would put DPD into the planning stage of operations, but nonetheless we should strive to achieve it. If I had my druthers I would prefer to see the gents who are responsible for the air ops, namely those of ASB, to do the actual liaison rather than [redacted] as you suggest. Possibly a more active role by ~~Chx~~ Chuck's Raiders, i. e. physically frequenting the halls of FE, EE, etc., might help the situation.
